**P**aul Francois Saucier, 73, of Milton Delaware, passed away on April 13, 2018. He was born on January 15, 1945 in Lewiston, Maine, son of the late Olivier Saucier and Jeannette Nadeau.

Paul graduated from St. Dominic's in May of 1963 and received his bachelors degree in mechanical engineering within two years at Wentworth Institute. He worked in the Mechanical Engineering Department as site Safety Manager of Engineering Development Laboratories for Dupont Industries for 39 years. Above all, he was a loving and devoted husband, father, grandfather, brother, and friend. He was loved by many, and he will be missed by all who knew him.

Gwen and family, Words cannot adequately express our sorrow for your loss. Greg and I wish we could be there to help comfort all of you, but since we won't be able to make it, we would like to share these words. Paul was a wonderful man, generous with his love, and always giving to others. He was a great cousin and Godfather to me. He had a great life, and will truly be missed. Taken from us way too soon, God has plans for him in heaven. This is his new home now, and well deserved. So instead of saying good bye, we'll just say, "until we see you again in your new home Paul". Our thoughts and prayers are with you Gwen and your entire family. God Bless you all.

That smile says it all. He was a true friend who was always willing to share his knowledge and experiences. I remember that he and his father in law made sure I felt right at home with the Carrcroft family. One of the ways they did that was trips to DuPont Country Club for a round of golf. Gwen and Paul were the first friends, that Joan thought it was important for me to meet. He even helped me with some body work on the car after a minor accident. There was nothing that he would not attempt with a good set of directions.
