“ My condolence and heart to the family. Such a shock to hear the news. I was fortunate to be a colleague of her at Expert Labs. Sharon was so kind and attentive to everyone, didn't matter that we where from Spain thousands of miles away. Beyond being a professional reference, I will remember her caring for the team. Rest in Peace.

“ I was fortunate to have been able to work with Sharon at IBM Security Expert Labs for many years. I also had the opportunity to meet her in person, in Atlanta, in Dallas, in New Orleans, the places where she helped organize the annual global Security Expert Labs conferences.

Her death is totally unexpected and very sad news.

I have always known Sharon as an extremely committed, very competent and always friendly and people-oriented person.

I would like to express my sincere condolences to the bereaved and her family.

“ Sharon is truly a special person. As the Chief Operating Officer of IBM Security Lab Services, she was my "right hand" person for my last 5+ years with IBM. Smart, talented, dedicated, she was my confidante, sounding board, facilitator and so much more. Sharon cared deeply for her employees, encouraging them and creating an atmosphere for them to shine. She made the whole organization better, delivering business, customer and employee success. Sharon was the driving force behind the tremendous success of the Technical Academies that were held for four straight years, events that will always be the highlight of my career. Seeing people from across the globe come together to learn, share and most importantly, build relationships grew the team into a family. No one can truly appreciate all the effort that went into making those events world class and it was Sharon who made it all happen.

I could write volumes on what Sharon meant to me, but let me simply say that I miss my friend immensely. Rest In Peace. Condolences and heartfelt love to her family.

“ *My heart goes out to the Weatherly family. Sharon and I were fast friends from the time we met in Ponte Vedra Beach years ago. Your description rang true -- if there was something to be done or someone to be helped, there was Sharon to make it happen. The love and devotion I witnessed for years between Sharon and Pat and Roger was so special. I send you all much love and wishes for peace at this tough time.*

“ This was truly a shock to hear. I worked closely with Sharon for well over 5 years at IBM. She was a very strong supporter, helper, friend and listener over that time. I have missed our regular morning chats since she moved out of IBM - mornings was the best time for our timezones to overlap and it seemed like most weeks we would chat daily. Rest in peace Sharon. My condolences to her family. Sharon regularly spoke fondly about her parents and nephews in our chats.
